

Office of the Real Estate Assessor
City of Norfolk
Annual Report
2016

January 3rd, 2017

The Honorable City Council
City of Norfolk
Norfolk, Virginia 23510

Dear Council Members:

It is a pleasure to provide you with this annual report from the office of the Real Estate Assessor for 2016. The information contained herein will cover an array of topics such as parcel counts and values, ratio statistics, historical and projected assessment trends and our plans for the future.

Once again, this past year, the economic climate and, more specifically, the local real estate market, continued to present unique and difficult challenges for us. While certain segments of the real estate market have seen slight increases, others have declined and property owners, in all classes of properties, once again voiced their concerns that assessments weren't being decreased enough. The 2016 reassessment was based on sales that occurred during 2015.

Our focus continues to be encouraging engagement of the employees so that they can envision what can be and then make important contributions toward the success and professionalism of this office. Through monthly meetings with senior staff and periodic meetings with teams and those employees assigned to special projects, we continue to make significant progress in the areas of technology, public relations, sales verification and validation, record management, permit processing and, most importantly, creating an environment that is conducive to achieving high professional standards and producing quality results.

The Assessor's office is judged not only by the accuracy, consistency and fairness of its assessment roll, but by its public image as well. One of our primary objectives continues to be that all property owners, taxpayers and citizens be treated with the highest degree of courtesy and professionalism. We continue to maintain an "open door" policy to ensure that all matters are addressed in a timely manner and resolved efficiently and effectively. During the last fiscal year, this office responded to a total of 11,330 phone calls and served 800 walk-in customers. This does not include the countless customers who came in to use the public computer terminals and access our data online.

I sincerely wish to thank all of my employees for their professionalism and dedication to supporting the citizens of Norfolk.

Respectfully,

Bill Marchand, CRA
Real Estate Assessor

2016 Land Book Information

Property Transfers

Of the total property transfers during the 2016 reassessment, 601 were **foreclosures**, representing an aggregate sale price of \$158,240,034. The 2016 aggregate assessment for those same parcels is \$206,524,700. In addition to actual lending institution mortgage foreclosures, there were also 149 recorded **short sales** and 563 **bank sales after a foreclosure**. The total number of distressed sales for 2015-16 was 1,313.

Appeal Process

Each year, the Assessor's office mails a reassessment notice for every property in the City. The first step in the appeal process is for the property owner to discuss the new value with the staff appraiser responsible for the neighborhood in question. Requests for a review can be made in person by visiting the office or by contacting the office through mail, e-mail or telephone. Many times the property owner will provide new or corrected information that will result in a value change. If, however, the property owner is not satisfied with the results of the informal review, he or she has the right to appeal to the Real Estate Board of Review.

With the adoption of the ordinance that established specific informal and formal appeal periods, this process continues to be managed better by both the Assessor's office and the Board of Review. This year, with the aid of new technology in our conference room, we were able to significantly reduce the enormous amount of paper usually generated for each appeal case. There were a total of **53** appeals, compared to 66 appeals in the previous year. By property class, the appeals break down as follows:

Residential Condos	3 appeals
Residential	13 appeals
Commercial/Industrial	28 appeals
Non-Tax	1 appeal
Apartments	8 appeals

Of these 53 appeals heard, 33 were sustained and 20 were awarded reductions. At the direction of the Board, no value changes were posted in the system until the conclusion of the hearings in late August. This resulted in corrections being made to the published Land Book in the amount of -\$17,431,100.

Value Reductions Awarded by Category

Exempt Properties

The Constitution requires that all property, except that specifically exempted, is to be taxed. The exemption of property is provided for in Article X, Section 6. Exemptions can be categorized by either classification or designation.

As shown in Section 58.1-3606, exemptions by classification include properties owned by the federal, state, and local governments, property owned by churches and religious bodies and used for worship or for residence of a minister, non-profit private or public cemeteries as well as other similar entities.

Exemptions by designation, as listed in Section 58.1-3607 through 58.1-3650, include properties owned by organizations such as the American National Red Cross, Boy Scouts and Girl Scouts of America, etc. Virginia law allows the City Council to adopt an ordinance to designate certain properties of certain organizations as being exempt from local property taxes, and the procedure for considering such designation is set forth in section 24-212.5 of the Norfolk City Code. Among other things, in considering requests for the exemption by designation, the City Council is required to review various characteristics of the requesting organization and to consider any such request at a public hearing prior to adopting any such ordinance. On May 8, 2013, City Council adopted an ordinance placing a moratorium on the exemption of property by designation. Since that date, only applications by entities seeking exemption by classification are being processed.

During the 2016 reassessment year, there were forty-one (41) parcels reclassified from taxable to exempt status, resulting in \$20,494,400 of assessed value being removed from the tax rolls. Additionally, a total of 116 parcels were reclassified from exempt to taxable status, resulting in \$45,581,900 in assessed value being added to the tax rolls.

	Number of Parcels	Assessment Change
Exempt to Taxable	116	\$ 45,581,900
Taxable to Exempt	41	\$ 20,494,400
Net Results	157	\$ 25,087,500

The above changes resulted in an annual net gain of approximately \$25,087,500 in tax dollars.

The nontax recertification process for July 1, 2017 will begin January 2017. This process will include several mailings to all existing nontax properties.

The following are the various categories of real property exempt from local real estate taxes:

Tax Abatement Program

This office continues to administer the Tax Abatement Program for rehabilitated properties first adopted in 1998. Entry to this program is gained by filing an application with the Real Estate Assessor prior to the start of renovation activities. Upon receipt of the application, the type and extent of work to be performed is analyzed and verified and the property is inspected to ensure that the records in the Assessor's database are correct and the current assessment is accurate. The property is then evaluated and a decision made as to eligibility for admission. Follow up field inspections, including the taking of photographs, are made periodically during the renovation period. Upon completion of the renovations, a final inspection is made and a new value calculated. If all program guidelines are met, the real estate tax attributable to the increased assessment due to the renovations is fully abated for a period of ten (10) years and then phased out over the next four (4) years for a total abatement period of fourteen (14) years.

Currently, 687 properties are enjoying abated assessments in the amount of \$169,034,300. During the past year, 35 applications for the Tax Abatement Program were received.

The breakdown of properties **approved** for the program **during this past year** is:

Special Projects

Sales Verification & Validation

The uncertainty of the real estate market continues to be a challenge in a process that requires assessments to reflect 100% of market value. My staff has begun to analyze 2016 sales for the 2017 reassessment, utilizing deed records, sales verification questionnaires, the multiple listing service and physical inspections. Consideration continues to be given to foreclosures, sales after foreclosures and short sales. In some neighborhoods, those are the only types of sales or listings and they are still having an impact on market value.

Public Relations

Speaking Engagements

I believe that public education regarding the assessment process is a benefit to both the City and the property owners. To that end, I will continue my speaking engagements before civic leagues, homeowner groups and any other entity desirous of learning about the functions of the Real Estate Assessor's Office.

Customer Service

During the past year, this office served over **12,000** customers, including property owners, fee appraisers, title searchers, attorneys and real estate agents. Approximately **11,330** citizens were served at our counter and another **800** were served on the telephone. Many others sought our help through fax, mail and e-mail. We will continue to strive for excellence in our service to the public.
